

CAREER OPPORTUNITY

Job Title: Senior .Net Full-Stack Developer
Reports To: Lead Developer
Location: Corporate Office (Bozeman, MT)

ABOUT CrossTX

CrossTx is a premium cloud-based healthcare management platform focused on driving world class patient care through innovative technology.

Position Overview

We're searching for a Senior Level full-stack developer looking to experience the fast-paced world of a start-up software company. As a member of the development team, you will be responsible for everything from API development and web design all the way down to database design and implementation.

General Responsibilities

- Analyze system requirements and prioritize tasks
- Write clean, testable code using .NET programming languages
- Develop technical specifications and architecture
- Test and debug various .NET applications
- Review and refactor code
- Deploy fully functional applications
- Upgrade existing programs
- Support junior developers' work
- Document development and operational procedures

Qualifications

- Education: BS in Computer Science, Engineering or relevant field
- 3-5 Years Experience working as a Full Stack .Net Developer
- Restful Web API development
- MySQL Database design and SQL
- Aurelia
- JavaScript and Typescript
- HTML and CSS
- Scrum/Agile development
- Software design patterns
- Team foundation and Visual Studio

How to Apply
