

CAREER OPPORTUNITY

Job Title: Full-Stack Developer
Reports To: VP of Engineering
Location: Corporate Office (Bozeman, MT)

ABOUT CrossTX

CrossTx is a premium cloud-based healthcare management platform focused on driving world class patient care through innovative technology.

Position Overview

We're searching for a full-stack developer looking to experience the fast-paced world of a start-up software company. As a member of the development team, you will be responsible for everything from API development and web design all the way down to database design and implementation.

General Responsibilities

- Analyze feature, system and client requirements
- Develop implementation plan and prioritize and deliver tasks
- Write clean, testable backend code using .NET programming languages
- Work with lead developer to develop technical specifications and architecture
- Test and debug various .NET and web-based applications
- Maintain and improve legacy systems and architectures
- Conversion from older .Net frameworks to .Net Core
- Web API and microservice development
- MySQL design and implementation

Qualifications

- Education: BS in Computer Science, Engineering or relevant field
- 1-2 years experience working for a software company
- Experience working with objected oriented languages
- Knowledge of Restful Web API development
- Aurelia or another relevant front-end framework (i.e. Angular)
- JavaScript and Typescript
- HTML and CSS
- Scrum/Agile development
- Software design patterns
- Experience working with SQL based RDBMS

How to Apply

Please send resumes and cover letters to:

Kara Gallinger, Director of Finance & Operations – kara@cross.tx.com

Only qualified individuals being considered will be contacted for an interview.

32404 Frontage Rd. | Bozeman, MT 59715
